**STANDING  
THE  
TEST OF TIME  
23rd ANNUAL SALE**

Mary & Russel Rutan  
Preble County Fair 1950's

Shorthorn cows at Ron's grandparents 1890's

## *Standing the test of time.....*

History, it is important for us to understand where we have come from and what was endured to get to our industry where it is today. Could those that have come before us, learning and developing the practice of animal husbandry and stockmanship have ever fathomed what the year 2015 would offer. Think what the reaction would be if you owned a time machine and tele-ported a cattlemen from the turn of the century to modern times and explained the advances in feedstuffs, medications, animal health practices, genetic advancement with AI and ET work? How

about the real world use of genetic mapping and gene isolation. The economic advancement benefits from EPD's and trait specific testing? How about the internet's use in marketing cattle?

**T**wo things however we believe should remain constant.

First and foremost the basics of cattle functionality, skeletal integrity, a proven, predictable pedigree, the proper build and base width and animals that are profitable in terms of feed conversion and growth. Second is conducting business fairly with honesty, integrity and treating folks with dignity. These are the things that *STAND THE TEST OF TIME*

This sale has a unique blend of folks involved from our founder and host, Ron, and our resident elder statesman, Clair, with both wisdom and a golden buckeye card. We also have not one but two Jr. breeders ages 15 and 16...in Ravi and Austin. We hope to see you for our 23 Annual calf sale... come early to see the cattle, stay late and visit... but be sure to have some Ice Cream...

*Ron & Christy have been great personal friends and customers of mine for many years. I have learned a lot from them over the years and have always admired the integrity in which they breed and merchandise their cattle. I am honored to have them as customers and have had them recommending our feed products over the last three decades.*

*Gene Rowe*

Thank you for taking time to view the offering, each year at picture time I get a case of stinkin - thinkin. I convince myself that there is no way this group can put together a set as good as the year before! Just isn't possible. When your in the consulting / sale management game you know very well that folks have "off years" its part of it. Each year as I drive out to Ron's, I think the same thing..."This is it, no way, this year will be rough...Can't top last year!" ..... AND EACH YEAR I AM PROVEN WRONG.....

The last three years have been really good sales... Big crowds, great families in the seats, phone calls from across the US... A \$29,000 High seller, another at \$23,500 a 3rd at \$18,000 and lots of smiles when its over...I don't nor do any of the consignors expect that to happen this year, 95% of the show prospects sold in the sale do so for a very fair price, and there is always something in EVERYONE'S budget....However I do believe perhaps three of the best cattle ever offered at the early bird are selling this year!!!

I honestly couldn't give two hoots about the steer calves... I'm a show

heifer / cow guy, but I photo about 4,000 head of steers that sell online each fall.... Not many will be better than the ones offered here! Its been my honor to market cattle for RC and Guests and this set is easy to brag on. As always if I can assist you in any way, please feel free to contact me. 937-533-0169
