## **Welcome to FSF**

### **Fellow Cattlemen,**

Welcome to our 20th annual “Dynamic Dams’ Female Sale. We began whole herd A.I. back in 1972 and utilized embryo transfer beginning in 1982 to proliferate our best genetics. FSF is a multi-breed operation utilizing various breeds for their inherent strengths. Our emphasis has always been on balanced, structurally correct cows that are moderate and thicker than most. Much of the offering is a result of stacked generations of consistent phenotype. We have acquired cows that have been raised by like-minded breeders who have years of experience and different bloodlines.

Our 42nd annual Club Calf Sale was a success with 70 lots selling into 9 states.

Our thanks to our family and friends for their assistance throughout the year. We are striving to build a better bovine 365 days each year. Thanks for considering FSF genetics and the Star Brand.

**Sincerely  
Tom & Lisa**

Solid Gold is famous from Brandon Horn, but he and this  
cow has been magical 6 sons near \$10,000 avg. What  
can she produce out of your favorite Char. Bull or FSF  
Snowburst. We will see. Ready to flush.  
She will reside at FSF  
with all cost, embryos,  
and natural calves  
shared equally.
